

Senior Technical Tool Expert

Vienna, Austria | Full time

Company Description

Sixsentix ranks among the fastest growing companies in Europe, among the top 3 fast growing companies in Switzerland, was recognized as one of the top small businesses in Serbia, and is among the top 50 global most valuable brands! With offices in Zurich, Vienna, Belgrade, Novi Sad and a strong presence in Abu Dhabi, we provide Software Agile Testing Services with advanced analytics to the largest banks, financial services, insurance and telecom companies. We are looking for a new member of our growing company. Join our [Sixsentix](#) Team!

Job Description

At the start of a new project, the chosen test tools are to be integrated into the customer's environment. It can get very challenging connecting various applications and technologies with each other.

During this phase, there are a lot of requirements which need to be met under time pressure.

In the mature phase of projects, the number of technical requests and the workload decrease significantly. However, the ad-hoc tasks still require creative solution approaches and good collaboration with the project team and the customer.

Technical support for a project is usually not a full-time engagement, which gives the possibility to manage multiple clients in parallel and quickly build many customer relationships.

- Integrate Tricentis Tosca and other tools into the customer's IT environment (mostly C#, Java, Java Script)
- Skillfully enhance the functionality of Tricentis Tosca and other tools to meet the customer's expectations (mostly C#, Java, Java Script)
- Upgrade and maintain test environments
- Support our clients and prospects with expertise about different technical related questions
- Support our sales force in all technical/tool related matters
- Provide technical POC's to clients and interested parties on our solutions
- Collaborate with teams in Austria, Switzerland, Serbia and Germany
- Potentially develop automated test cases, report to the testing principals, develop and maintain large frameworks
- Represent the company and our solutions with passion and enthusiasm

Qualifications

- Solid education in software engineering (academic degree) or relevant work experience
- 4-6 years of experience in professional software development (Java or C# preferred)
- Excellent programming skills in C#, Java, Python and/or other programming languages
- Test and/or test automation experience and developing Visual Basic are a plus
- Expert know-how with TOSCA TestSuite and its technical controls (including customizations)
- Excellent knowledge of the software test processes
- Experience with software architecture/large IT environments
- Working knowledge of design patterns
- Willing to work in an agile environment (Scrum) and having an agile engineering mindset
- Strong written and verbal communications skills in English and German
- You thrive in a challenging environment and stay calm under pressure
- Reliability and strong quality awareness
- Customer and project accountability and presentation skills
- Team player motivated by achieving innovative results and a high solution orientation
- You have strong analytical skills and a pronounced ability to think in abstract terms
- Willing to provide a valuable contribution in a high performing organization
- Travel availability

What we Offer

- Competitive salary
- Long term service bonus
- Annual Pass for public transport
- Health Club incentive
- Travel insurance
- Vacation plus Christmas company days
- Recognition and opportunity for advancement
- A flexible and open working atmosphere
- Innovative Agile Engineering culture
- Work with the latest tools and technology
- Opportunity to work on challenging projects for leading enterprises
- Modern office by U1 subway
- Employee/ networking events

*Valid Work Permit / Work Permit Eligible

The salary payment for a full-time equivalent amounts to the minimum basic salary of at least EUR 3.392 gross, according to the Collective Bargaining Agreement - "Kollektivvertrag". (Overpayment is possible with the right qualifications.) The position is full time and anticipated to be 38,5 hours per week.

We look forward to receiving your electronic application (CV, reference letters, etc.) by email to careers.at@sixsentix.com. Find more information about Sixsentix on www.sixsentix.com
