We offer a super work climate with excellent benefits. Join our [Sixsentix](#) Team!

As a Test Automation Expert your main task is the creation of a Test Automation Framework according to the needs of our clients. You are responsible for the Test Automation process & support from a Non-GUI technical perspective. You manage daily testing operations & ensure that all quality issues are dealt with thoroughly. Your responsibility is to coordinate all the techniques and practices with the test team, to raise and remove business-related or technical obstacles, risks and issues at the earliest stage.

### Your Tasks

- Automation of Test Cases by using mostly TOSCA TestSuite
- Designing of methodological test data
- Development and maintenance of large automation frameworks
- Cooperation with teams in Switzerland, Austria and Serbia
- Client coaching
- Programming of Tool-plugins and adaptors

### Desired Experience

- Minimum 5 years of previous hands-on experience in Test Automation
- Deep understanding of TOSCA including certifications (TDS/AS/SAP)
- Academic degree in IT or comparable job experience
- Programming skills (Java, VB)
- Broad technical IT knowledge and ability to abstract complex situations
- Proven record in Test Management (ISTQB or similar)
- Banking and Insurance know-how in testing
- Strong written and oral communication skills on all hierarchical levels in English (German is a plus)
- Agile engineering mindset and experience of working in Agile environment
- Willingness to travel

### What We Offer

- ✓ Competitive salary
- ✓ Challenging Projects
- ✓ Innovative Engineering Agile Culture
- ✓ Work with the latest tool and technology
- ✓ A flexible and open working atmosphere
- ✓ Recognition and opportunity of advancement
- ✓ Working on projects for leading enterprises and financial services costumers
