

Methodology Expert - Zurich, Switzerland

Our mission is to raise the bar when it comes to software testing and meet and exceed the expectations of our customers and partners. We are growing and looking to expand our team to better service our enterprise and financial services customers. We offer a super work climate with excellent benefits.

Company Sixsentix AG announces an open position for Methodology Expert of the Software Agile Testing (SWAT) Team for the purpose of a new project for a well-known Swiss client. For further information to the SWAT Team Approach please visit our homepage www.sixsentix.com

Methodology Expert (F/M), full-time

Methodology Expert provides crucial support in the field of test methodology, test case design and test case specification. His responsibility is also to develop new strategies and project transformations. He closely collaborates with both the Development team and Client's Business team to make sure that the requirements are clearly understood by the test team. Methodology Expert creates, completes and fulfills the functional and test case design structure within TOSCA Testsuite™ according to the input he gets through a knowledge transfer from the Business Analyst of the Client Company at a workshop or he makes reviews and Test Case design on his own. Owing to his contribution, the test team is able to perform the testing without knowing any details of the project.

He must possess the TOSCA certified implementation partner certification which guarantees that he has undergone an extensive training in TOSCA. His proven abilities and wide range of experience in TOSCA, along with TCIP certification, enable ME to fulfill the highest requirements for this position.

Your Tasks

- Creation of requirement structure with its risk based weight
- Creation of test case design
- Providing support regarding Test methodology - choosing the best practices and techniques in the field of test case design and test case specification for the team to reach optimal results
- Strategic revision and implementation of a test case portfolio along with the PM/TL
- Project artefacts: creation of the project requirements within TOSCA Testsuite™, creation of the test case design within TOSCA Testsuite™, Implementation of the LinearQ™ methodology

Our Requirements

- Academic degree (IT Engineer) or comparable job experience
- Top skilled in methods of LinearQ™
- Top skilled in different methodical approaches for applications
- Excellent knowledge of branches requirement structure engineering and test case design in TOSCA Testsuite™
- Best knowledge in tuning and handling of requirement structures, requirements weighting and test case design results
- Fluent German and English skills (oral and written)
- Very experienced MS Office user

What we Offer

- Competitive salary
- Excellent benefits
- Professional work environment
- Personal & professional development
- Challenging projects
- Innovative culture
- Work with the latest tools and technology
- High IT infrastructure standards
- A flexible and open working atmosphere
- Recognition and opportunity for advancement
- Working on projects for leading enterprises and financial services customers

We look forward to receiving your electronic application (CV, reference letters etc.) by email to careers.ch@sixsentix.com
